October 19, 2021

Dear Sharon Dolovich:

Thank you for contacting the Nevada Department of Corrections (NDOC) to submit a public records request. This request received July 26, 2021 seeks certain records, specifically:

“Documents showing information for every individual who has died while under the custody of the Nevada Department of Corrections from 2015 to May 2021. For each death, we seek the date of death for the individual, the institution at which they were housed, their custodial ID number, their name, the type of death, the cause of death, and the race, gender, and date of birth of the decedent. We have attached an example file from the Illinois Department of Corrections to this request. We seek this information, if available, in a machine-readable format (e.g. a csv or xlsx file).”

NDOC has conducted a review of records in our custody. The responsive and non-privileged/confidential records are included with this communication. NDOC has also identified information that may not be released because release may jeopardize sensitive personal privacy information.¹ Narrowly tailored redactions have been placed, as necessary.²

NDOC will now close this matter. Thank you for your patience with this review.

Sincerely,

W.C. "Bill" Quenga,
Acting Public Information Officer
Nevada Department of Corrections
